Professional Summary

Technical Operations Leader specializing in Operational Support Design. Proven track record of architecting end-to-end technical workflows and escalation paths for national product rollouts. Expert at translating complex system requirements into scalable training curricula and standard operating procedures (SOPs) that bridge the gap between development and Tier 1 support.

Core Competencies

Operational Architecture: SME Partnership, Support Tier Structuring, Pilot Program Leadership, Process Mapping.

Logic Validation: Tier 2 Troubleshooting, RMM Dashboards, ConnectWise, Digital Signage, Network Security.

High-Tier Documentation: Knowledge Base (KB) Creation, Technical Writing, Training Validation, SOP Development.

System Integrity: Team Mentorship, Active Listening, Problem-Solving, Infrastructure Stability.

Professional Experience

Spectrio | Remote

Technical Support Specialist II – KIA Kiosk Pilot Lead | June 2022 – Present

Operational Architecture & Pilot Leadership: Selected as one of two support technicians to spearhead a high-stakes KIA dealership Digital Signage and Kiosk pilot, establishing the technical foundation for a national rollout.

Logic Validation & Workflow Engineering: Collaboratively engineered the primary operational frameworks and technical SOPs for company-wide implementation.

Service Model Design: Partnered with Learning & Development (L&D) to design a tiered service model, defining critical escalation paths to optimize ticket routing and efficiency.

High-Tier Documentation & Knowledge Management: Authored and audited the foundational technical guides and internal Knowledge Base (KB) articles that serve as the organization's primary training curriculum.

System Integrity & Readiness: Facilitated advanced troubleshooting and software training for team members to ensure department-wide readiness for new hardware deployments.

Performance Management: Managed system performance and stability for enterprise-level digital signage portfolios.

Metro Networks LLC | Fresno, CA

IT Help Desk Technician | June 2021 – Nov 2021

High-Volume System Management: Acted as the first point of contact in a fast-paced MSP environment, providing rapid diagnosis for diverse technical issues via phone and email.

System Remediation: Executed NOC-driven remediations via RMM dashboards and managed complex ticket lifecycles within ConnectWise to maintain system stability.

Network Integrity & Troubleshooting: Diagnosed and resolved intricate hardware and network connectivity issues for PCs and interconnected systems.

Education & Professional Development

Kansas State University Salina | **Online** | In Progress

Professional Coursework: Technical Writing

Applying advanced documentation principles to the creation of Standard Operating Procedures (SOPs) and Knowledge Base (KB) architecture.

- Document Design Capstone chosen by the instructor to serve as the benchmark example for future students based on clarity, structure, and technical accuracy.

Fresno City College | Fresno, CA

Certificate of Achievement, Cybersecurity | 2021 – 2022

Heald College | Fresno, CA

Associate of Applied Science, Network Security and Administration

- Honors Graduate
- Student Mentor for the Information Technology Program.
